

Nexwave Telecoms and SIM collaborate to bring exclusive SunPage benefits to SIM Members

Singapore Institute of Management (“SIM”) and Nexwave Telecoms Pte. Ltd. (“Nexwave Telecoms”) are pleased to announce an exclusive collaboration. Under this agreement, Nexwave Telecoms has been appointed SIM’s Telco Partner for SIM’s Members’ Day. SIM members will receive attractive benefits and savings on IDD services under Nexwave’s well-known SunPage brand. SIM members will also receive attractive SunPage premium products in goodie bags.

This collaboration is part of the SIM-SunPage partnership that started in 2009 with the aim of making it less expensive for SIM students and members to keep in touch with friends and families overseas. Offering service privileges such as Voiz Unlimited, which allows users to make unlimited calls to preselected destinations, SunPage remains committed to supporting SIM students and members in their telecommunication needs.
